165mm
CPU Cooler

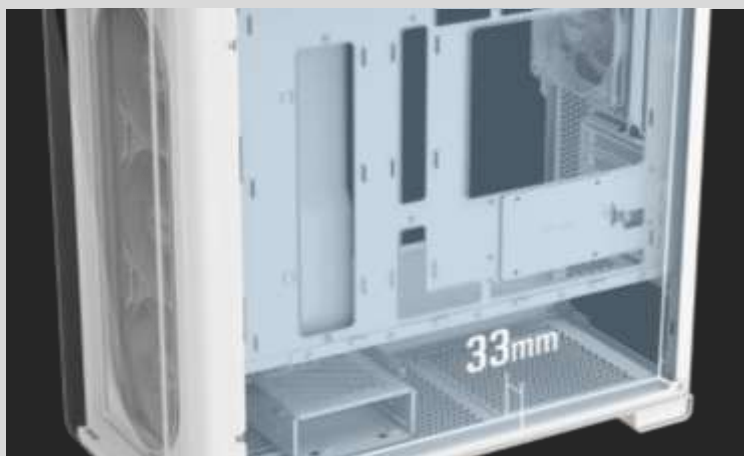

Standoff-mounted tempered-glass front panel

The ASUS A23 series showcases a rounded tempered glass (TG) design, offering increased thickness and exceptional scratch resistance. This enlarged TG design allows users to fully enjoy the captivating visuals of the front ARGB fan.

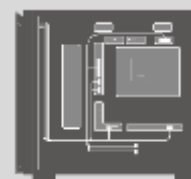

Complete cabling, direct management

Enjoy the cable management in ASUS A23 Plus. Don't worry about hassling in cabling plan, the cable cover helps the whole system keep the clean look. There is **33mm** space behind the motherboard tray. Decreasing the cabling difficulties and making it perfect.

Different look, direct innovation

To realize the perfect clean look on the MB side, all the modular cables can be hidden behind the MB and perfectly match with the hidden connectors. Further reduce the potential mess look by cables.

Hidden connector

Color-paired modular cable, direct match

For any side of look, for any every side of life, no concerns about weird black modular cables to impact the white system build. It is a truly borderless, clean white harmony design that set a specially understated style and smooth gaming setting.
